

January 30, 2014

Dear Friend,

As an opponent to the North Fork compact, I wanted to update you on our campaign to stop this proposed off-reservation casino. We have officially qualified a statewide referendum on the North Fork compact that will be on the ballot in November 2014 for a statewide vote.

As you know, when California voters passed Proposition 1A in 2000 they did so after being promised that Indian gaming casinos would be located on established reservation land. The North Fork compact breaks this promise.

There are already more than 20 off-reservation tribal casino projects in motion across California. Approving the North Fork casino project will open a floodgate for more reservation shopping.

**Our recent polling shows that over 60% of Californians oppose off-reservation casinos.**

Your early support of this effort is important and will show the political insiders in Sacramento that we can stop this off-reservation casino.

An endorsement form is enclosed. Please fax back to (916) 444-8905. You can also join our effort on the web at [www.stopreservationsshopping.com](http://www.stopreservationsshopping.com).

Sincerely,

Cheryl Schmit  
Director, Stand Up for California

PS – I have enclosed a recent editorial that highlights our fight.
